

Technical Data Sheet
GoodPack Container MB5
Stackable Steel Container
Used: Like-New

Product highlights:

- The MB5 is a galvanized steel container, which can be stacked both empty and laden, as well as collapsed when not in use.
- The construction ensures efficient protection against shocks, rough handling and contamination.
- The MB5 is safe, easy and quick to both assemble and disassemble by a single individual.
- The MB5 offers easy handling with 4-way forklift entry, one removable sidewall and a rugged build.
- It is used extensively for shipping natural and synthetic rubber, chemicals, foodstuffs, industrial components and consumer goods in sea containers and trucks.
- Maximum payload 1,650 kg (3,637 lb).
- Laden five high stacking in warehouse.

Technical Specifications:

- Dimensions (external):
1,465 × 1,150 × 1,098 (mm, L × W × H)
- Dimensions (internal):
1,437 × 1,090 × 1,020 (mm, L × W × H)
- Dimensions (collapsed):
1,465 × 1,150 × 181 (mm, L × W × H)
- Volume (internal):
1.60 m³ (422 US gallon, 56.5 ft³)
- Tare weight:
132 ± 4 kg (291 ± 9 lb)
